

UTKARSH SHUKLA

Software Developer | MERN | DSA (1800+ LeetCode)

+917905342263 ✉ utkarshshukla102005@gmail.com  LinkedIn  Github  Leetcode  CodeForces  Portfolio
📍 Mirzapur, India

SKILLS

Programming Languages :	C++, Python, JavaScript, Java, TypeScript
Frameworks & Libraries :	MERN Stack, Next.js, Tailwind CSS, React, Node.js, Express, REST APIs, WebSockets
Tools & Platforms :	Git, Google Cloud, Docker, Kubernetes, GitHub
Databases :	MongoDB, MySQL, PostgreSQL, Firebase
Soft Skills :	Communication, Problem Solving, Teamwork
Languages :	English, Hindi

PROJECTS

NextCollab – Real-Time Collaboration Platform |  Github Aug 2025 - Oct 2025
Individual Project

- Built a **full-stack collaboration platform** managing **multiple projects & 50+ tasks/user** with **real-time updates via Socket.IO**
- Implemented **JWT-based authentication (100% secure sessions)** with **OAuth (Google/GitHub)** and **password recovery system**
- Developed **drag-and-drop Kanban board** improving task tracking efficiency by **~30%**
- Designed **scalable backend (Node.js, Express, PostgreSQL, Sequelize)** handling **concurrent users and real-time events**
- Created **responsive UI with Tailwind (light/dark mode)** supporting **2+ platforms (desktop & mobile)**

Technologies / Tools Used : React, Tailwind CSS, Node.js, PostgreSQL, Socket.IO

NexMeet – Video Conferencing Platform |  Github Dec 2025 - Jan 2026
Individual Project

- Built a **WebRTC-based video conferencing app** supporting **10+ users/room** with real-time video, audio & chat
- Achieved **~200ms latency** using **STUN/TURN**, ensuring stable cross-network connections
- Implemented **secure meetings (100% authenticated)** with **Clerk, passwords, waiting rooms & host controls**
- Designed **scalable backend (Node.js, Express, MongoDB)** handling **concurrent real-time events**
- Developed **screen sharing + responsive UI** for **2+ platforms (desktop & mobile)**

Technologies / Tools Used : React, Node.js, WebRTC, MongoDB, Socket.IO

WORK EXPERIENCES

Data Analyst Intern | Internship May 2024 - Jul 2024
ICSSR Remote

- **Analyzed** large healthcare datasets to study societal behavior during COVID-19.
- **Performed** data cleaning, visualization, and reporting using **Python**, Pandas, Matplotlib, and Excel.
- **Generated** insights to understand public responses in different pandemic scenarios.
- **Developed** strong skills in data analysis, visualization, and analytical libraries.

Technologies / Skills Used : Pandas, Matplotlib, Python, Excel

EDUCATIONS

Indian Institute of Information Technology Tiruchirappalli Aug 2023 - Present
B.Tech in Computer Science and Engineering CGPA : 7.2

AWARDS & ACHIEVEMENTS

- **Solved 1,200+ Data Structures and Algorithm Problems**
- **LeetCode Rating:** Knight Level Max Rating **1882** (Best Rank **808**)
- **CodeChef:** 3 Star (Max Rating **1,636**)
- **Codeforces:** Pupil (Max Rating **1,337**)
- **Finalist** - Technocrats Hackathon

CERTIFICATIONS

Technocrats Hackathon Dec 2025 - Dec 2031
Quanta Crew
